CIL e-auctions to get back to pre-Covid status in view of Oct auction's success

FE BUREAU
Kolkata, November 4

COAL INDIA (CIL'S) November onward auctions will be back to pre-Covid status, wherein the PSU miner's subsidiaries will determine their own add-ons.

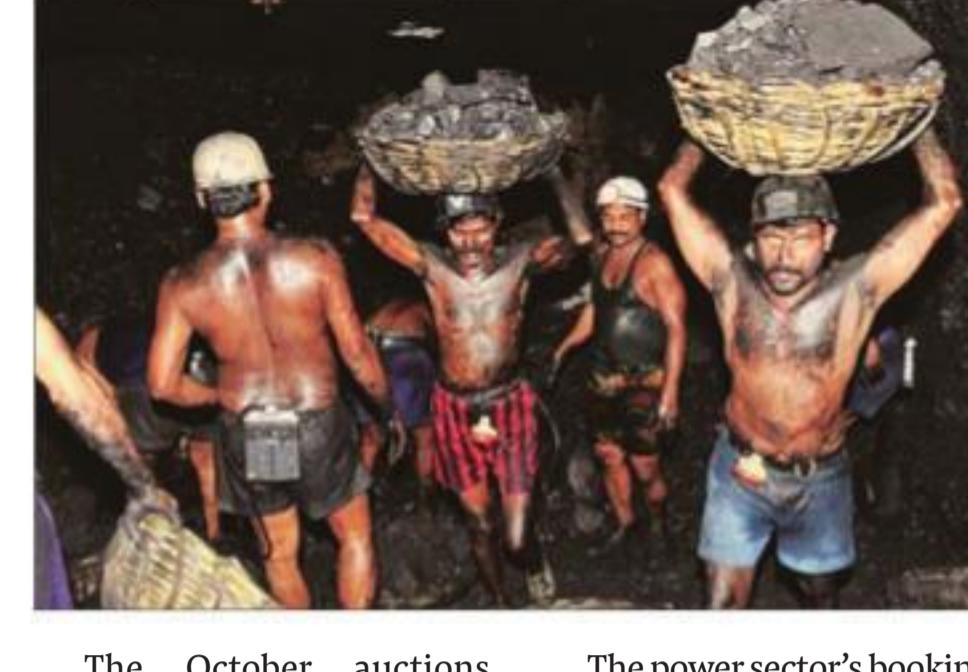

The decision came after gauging the response in the October auctions, where CIL introduced an add-on of 10% over the notified price to test the market trends.

CIL brought down the reserve price for the auctions at the level of the notified price at the onset of the Covid-19 pandemic.

The October auctions has signalled stable auction sales and increased premiums in the ensuing months even after adding premium on the notified price to fix the reserve price, a top CIL executive said.

CIL's e-auction sales at 16.8 million tonne (MT) in October was up 190% compared to 5.8 MT booked during October last fiscal.

The big jump was on the back of the power sector and other coal buyers, signalling a strong demand resumption after a Covid-led hiatus.

The October auctions fetched CIL an average 13% increase over the notified price though special spot, which is a new auction outlet for coal importers, over the prevailing four windows chipped in 14% increase over the notified value, a CIL spokesperson said, adding under the special spot, a first time introduction meant for containing coal imports, 1.6 MT of coal was booked.

CIL's special forward auction for the power sector, booked 6.5 MT in October, accounting for 38.7% of the total booked quantity.

This sector booked only 2 MT in September.

The power sector's booking for the seven months ending October this fiscal, has been 16.5 MT compared to 12.9 MT booked during the same period last fiscal, a 28% increase. Volume booking in e-auctions for the first seven months of the ongoing fiscal ending October at 59 MT, increased 28 MT, a growth by 90%, while it fetched an average premium of 10% over the notified price.

During April-October, non powersector consumers in exclusive e-auction, booked 16.8 MT against 4.8 MT it had booked during the same period last fiscal.

Punjab farm protests: Railways incurs loss of ₹1,200 crore

PRESS TRUST OF INDIA
New Delhi, November 4

THE LOSS SUFFERED by the Railways due to the agitation in Punjab over the Centre's farm reform laws has already crossed an estimated ₹1,200 crore as protests on train tracks continued at 32 places across the state, the national transporter said on Wednesday.

According to data from the national transporter, over 2,225 freight rakes carrying vital commodities could not be operated till date due to the blockades caused by the protesters. Around 1,350 trains have been forced to be cancelled or diverted, it said.

"Losses already expected to have crossed ₹1,200 crore as agitators continued dharna at platforms/near railway track. Train movement had to be suspended due to operational and safety considerations as agitators have suddenly stopped some train movement and sporadic blockades continued at various places especially around Jandiala, Nabha, Talwandi Sabo and Bathinda," an official said.

"Due to the continued blockages at sections of tracks in Punjab, there has been a major adverse impact on freight movement and on availability of vital commodities for farm, industrial and infrastructure sector as well," the official said.

Later in a statement, the Railways said outward loading too has been affected from the Punjab area.

Movement of foodgrain, container, automobile, cement, pet coke, fertiliser have also taken a hit, the statement said, adding the average loss of loading per day in Punjab was 40 rakes per day. "Running trains with protesters sitting on the tracks or close to it is a dangerous situation. Trains drivers find it extremely hazardous to run in such situations," it said.

Earlier, railway minister Piyush Goyal had written to Punjab chief minister Amarinder Singh seeking assurance about safety of tracks and running staff to resume operations.

The Punjab chief minister is scheduled to lead a 'dharna' of Congress MLAs at Rajghat in the national capital on Wednesday following President Ram Nath Kovind's refusal to meet a delegation led by him over the Centre's farm laws issue.

The Punjab Chief Minister's Office had on October 21 sought an appointment for Singh and his delegation with the President to urge him to grant his assent to the state's farm bills passed last month by the assembly in a bid to negate the Centre's farm legislations.

The farmers' agitation in Punjab began around September 24 when they started blocking railway tracks and stations demanding repeal of the three agriculture related Bills.

Cabinet approves ₹1,811 cr for Luhri hydro plant

FE BUREAU
New Delhi, November 4

THE CABINET COMMITTEE on Economic Affairs on Wednesday approved investment of ₹1,811 crore for the 210-mega watt uhr Stage-I hydroelectric project in Himachal Pradesh.

The project is being implemented by state-run Satluj Jal Vidyut Nigam (SJVN) and is scheduled to be commissioned in five years.

The hydro power plant is expected to generate 758.20 million units of electricity annually. The Union government is also providing grants of ₹66.19 crore for supporting this project by providing enabling infrastructure.

During the project's life cycle of 40 years, Himachal Pradesh will receive free power worth ₹1,140 crore cumulatively, the government said.

Families affected due to this project will be provided with 100 units of free electricity per month for ten years. The cost of the project was initially estimated to be ₹2,208 crore.

It was conceived as a run-of-the-river plant to tap the hydropower potential of Satluj, requiring about 150 hectare of land.

Nod to MoU between India, UK for cooperation in medical product regulation

The Union Cabinet has given its approval for signing an MoU between the Central Drugs Standard Control Organization (CDSCO) and the United Kingdom Medicines and Healthcare Products Regulatory Agency for cooperation in medical products regulation, according to an official statement.

The main areas of cooperation between the two regulatory authorities include exchange of safety information, including pharmacovigilance where there is a particular safety concern related to the other party.

It also includes exchange of information on laws and regulations regarding medicines and medical devices.
